

**Safety Hub:  
Streamline Operations for  
Hyperbaric Oxygen Therapy (HBOT)  
Routine Safety Inspections**

CliniPaths  
Safety Hub:

**HBOT Safety,  
Quality &  
Compliance**

## Digitize HBOT safety inspections, ensure compliance, and stay audit- ready, every day

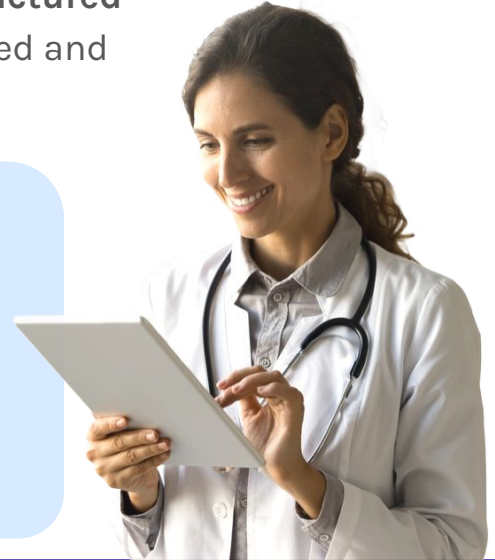

Routine HBOT equipment inspections are critical for safety, performance, and regulatory compliance.

CliniPaths transforms these checks into **structured digital workflows**, ensuring nothing is missed and everything is documented.

- Standardize safety checks across your team
- Ensure compliance with audit-ready records
- Eliminate manual logs and missed steps

See  
how it  
works

# What is CliniPaths

A **digital workflow platform** that turns clinical protocols into actionable, trackable, and auditable tasks, improving efficiency and reliability.

## SMART PATHWAYS

Turn complex protocols into actionable tasks, **standardizing care**

## WORKFLOW MANAGEMENT

Assign, track, and ensure **impeccable execution**

## COMMUNICATIONS

Keep teams **aligned** with real-time visibility

**From protocol to documentation - seamless, in one system**

# Use Case: HBOT Safety Inspections

## Challenge

Paper-based logs lead to:

- Missed or delayed checks
- Time-consuming reviews
- No real-time visibility
- Risk during audits

## Goal

Digitize inspections to:

- Save time
- Ensure completion
- Track and document every task
- Eliminate paper workflows

## Method

With CliniPaths Task Management:

- Daily checklists are automatically assigned
- Tasks are completed digitally
- Managers track progress in real time
- Every action is stored in an audit-ready log

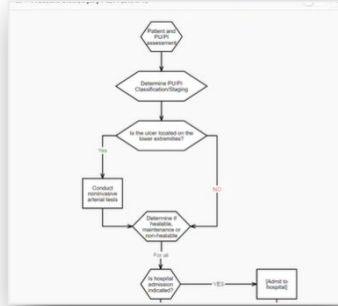

# How CliniPaths Safety Hub Works

Optimized workflow designed to minimize errors, promote compliance, transparency and enhance patient safety

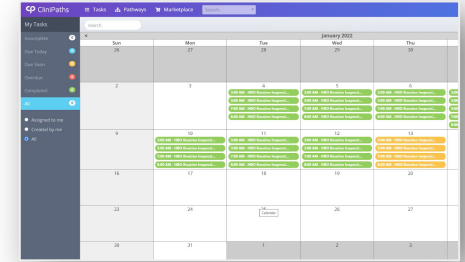

## 1 Build or Use Ready-Made Pathways

Pre-built HBOT safety checklists or fully customizable workflows

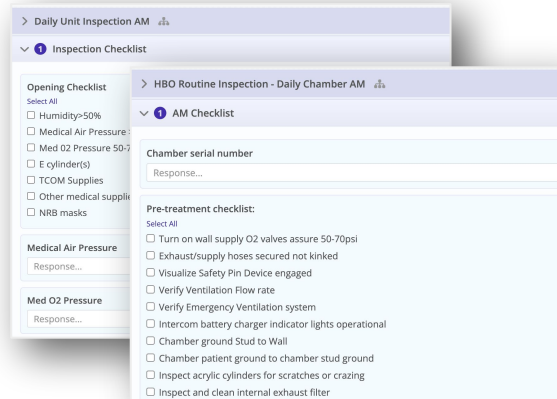

## 2 Assign Tasks Automatically

Daily, weekly, or recurring inspections - assigned to your team

## 3 Execute with Guided Checklists

Step-by-step execution with reminders and required fields

## 4 Track Progress in Real Time

Managers see completion, delays, and gaps instantly

## 5 Stay Audit-Ready

All records stored digitally, organized, and exportable

# Results

**50%**

**less time**

required conducting,  
documenting and reviewing  
HBOT chamber  
maintenance checks

**Improved  
Environment  
of safety**

and increased reliability in  
HBOT safety inspections

**Audit-ready  
at all times**

with complete and organized  
documentation, instantly  
accessible

**Backed by real-world HBOT program results**
